Industrial Ethernet

A broad product portfolio of RJ-45 Connectors and Ethernet Switches, Media Converters and Device Servers for Industrial Networks in the Machinery and Automation World.

Technical Features

- Fast Ethernet and Gigabit Ethernet Capable
- Field Installation with Fast Termination Device
- Common Core Principle or Conventional Technology
- IP 20 application with 2-Step Metal Spring for additional mounting device (housing – optional)
- IP 67 application with Push-Pull-, Bajonet and Thread-Interlock
- According IEC 60603-7-1
- Contact Area: Multiple contacts per pin in combination with the “Specific RJ-45 Modular Jack” to avoid signal interruption (realtime capable) are in progress
- Industrial Ethernet cables and comfortable Stripping Tool
- Further products available soon

Applications

Since Ethernet is more often used in Industrial Machinery Applications the integration of production equipment, components and drives is becoming more and more important and offers various opportunities. Thereby our customers are facing increasing requirements with regard to the capabilities of connectors and network components which are used in the harsh environments of manufacturing. Industrial Ethernet is already the platform for industrial controls and will even grow in the future.

Trends

Tyco Electronics will push these market trends by setting standards. With the new field installation RJ-45 Modular Plug Tyco Electronics present a high performance RJ-45 connector for Industrial Ethernet. This RJ-45 modular plug is capable of a data transmission rate of 100 Mbit/s (4 pos.) up to 1000 Mbit/s (8 pos.). The connector was developed for harsh industrial applications and is compatible with your existing data networks. The RJ-45 Plug is equipped with a fast termination technology and makes an easy and time-saving installation process possible.

Products

As the market leader for passive components Tyco Electronics offer a wide product portfolio and work furthermore on innovative solutions for your application. Tyco Electronics provide important, technical information for your product selection.
Industrial Ethernet IP20 Field Installation RJ-45 Modular Plug

**Industrial Ethernet IP20 Kit**

4 Position:
Part No. 1903526-1

8 Position:
Part No. 1903527-1

**Assembly Kit including:**
- RJ-45 Modular Plug “Core”
- IP20 housing including cable gland

**Technical Documentation**

- **Product Specification:** 108-78381
- **Application Specification:** 114-5402
- **Standards:** Compliant to IEC 60603-7-1
- **Rated Voltage:** 24 V DC
- **Rated Current:** 500 mA per pin
- **Durability:** 750 cycles
- **Cable Retention Force:**
  - 180° direction – 98 N
  - 45° direction – 78.4 N

**Material and Finish**

- **Case Housing:** Polycarbonate
- **Terminal Housing:** Nylon
- **Terminal Contact:** Copper alloy
- **Shell:** Copper alloy

- **Contact:** Underplate nickel
- **Contact Area:** Gold plated
- **Shell:** Nickel

**Cable**

- **Capable for** Part No. 1903526-1:
  - Part No. 1939707-1
  - 4 wire AWG 22 solid
  - Part No. 1981897-1
  - 4 wire AWG 22 stranded
- **Capable for** Part No. 1903527-1:
  - Part No. 1939708-1
  - 8 wire AWG 26 stranded

- **Capable Cable Diameter:** 6.3–6.7 mm

**Receptacle Frame (optional)**

- 3-D data available
- Parts upon request

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Industrial Ethernet IP67 Field Installation RJ-45 Push-Pull Connector – Variant 14

Industrial Ethernet IP67 Kit

4 Position:
Part No. 1987004-1

8 Position:
Part No. 1987004-2

Assembly Kit including:
- RJ-45 Modular Plug “Core”
- IP67 housing pre-mounted including cable gland

Technical Documentation

Product Specification:
108-78381 “Core”
108-xxx “Housing”

Application Specification:
114-xxx

Standards:
Compliant to IEC60603-7-1
Compliant to IEC61076-3-117 – Variant 14

Rated Voltage:
24 V DC

Rated Current:
500 mA per pin

Durability:
750 cycles

Material and Finish

Case Housing:
Ultradur / Lexans

Terminal Housing:
Nylon

Terminal Contact:
Copper alloy

Shell:
Copper alloy

Contact:
Underplate nickel

Contact Area:
Gold plated

Shell:
Nickel

Cable

Capable for Part No. 1987004-1:
Part No. 1939707-1
4 wire AWG 22 solid
Part No. 1981897-1
4 wire AWG 22 stranded

Capable for Part No. 1987004-2:
Part No. 1939708-1
8 wire AWG 26 stranded

Capable Cable Diameter:
4.5–6.9 mm

Receptacle Frame
- 3-D data available
- Parts upon request

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Technical Features

- Fast Ethernet Switch
- Compact housing
- Dimensions (W x H x D): 30 x 95 x 140 mm
- IP30 protection
- Relay output
- Store-and-Forward Switching Architecture
- RJ-45 port support MDI/MDI-X auto-crossover
- Broadcast storm protection
- Embedded switch controller supports autonegotiation
- Redundant wide range power input ±12 – 48 V DC
- Power polarity reverse protect
- Overload current re-settable fuse present
- Surge (EFT) protection 3000 V DC for power line
- 4000 V DC Ethernet ESD protection
- Flexible mounting: DIN-rail and panel mounting
- Operating Temperatures
  - from –10 °C up to +60 °C
    (standard model)
    - e.g. TES-401-X
    - TES-500-X
    - TES-800-X
  - from –40 °C up to +75 °C
    (wide operating temperature model – E-Type)
    - e.g. TES-401-XE
    - TES-500-XE
    - TES-800-XE

- Dust Cover for Fiber Port
- 1x enclosed

- Dust Cover for RJ-45 Port
- 4x enclosed

- TES-401-X:
  - Part No. 1987033-1
- TES-401-XE:
  - Part No. 1987033-2

- TES-500-X:
  - Part No. 1987031-1
- TES-500-XE:
  - Part No. 1987031-2

- TES-800-X:
  - Part No. 1987032-1
- TES-800-XE:
  - Part No. 1987032-2
Industrial Ethernet Products

Industrial Ethernet Switches – TES Series (continued)

Technical Standard
- IEEE 802.3, 803.3u, 802.3x (Fiber)
- 10/100 Base TX
- 100FX (Fiber)
- UL, cUL, CE, FCC

Specific Features
TES-401-X(E):
- 4-Port 10/100TX + 1-Port 100FX unmanaged Industrial Ethernet Switch
- 2K (wide operating temp. model) or 1K (standard model) MAC address table
- TX ports support full/half duplex flow control
- Multimode Fibre 2 km SC Interface
- Embedded memory buffer
- Backplane (Switching Fabric) 1.0 Gbps

Specific Features
TES-500-X(E):
- 5-Port 10/100TX unmanaged Industrial Ethernet Switch
- 2K MAC address table (wide and standard operating temp. model)
- Supports full/half duplex flow control
- Embedded memory buffer
- Backplane (Switching Fabric) 1.0 Gbps

Specific Features
TES-800-X(E):
- 8-port 10/100TX unmanaged Industrial Ethernet Switch
- 2K MAC address table (wide and standard operating temp. model)
- Supports full/half duplex flow control
- Embedded memory buffer
- Backplane (Switching Fabric) 1.6 Gbps

Wall Mounting Kit enclosed
Technical Features

- Fast Ethernet Switch
- Robust housing
- Dimensions (W x H x D): 58 x 135 x 106 mm
- IP 30 protection
- Store-and-Forward Switching Architecture
- RJ-45 port support MDI/MDI-X auto-crossover
- IEEE 802.3x Flow Control Support
  - Flow control on full-duplex
  - Back pressure on half-duplex
- Embedded switch controller supports autonegotiation
- Redundant wide range power input +12–48 V DC
- Power polarity reverse protect
- Flexible mounting: DIN-rail and panel mounting
- Operating temperatures
  * from –10 °C up to +60 °C (standard model)
    e.g. TES-500
    TES-800
  * from –40 °C up to +75 °C (wide operating temperature model – E-Type)
    e.g. TES-500-E
    TES-800-E

Tes-500:
Part No. 1987029-1
Tes-500-E:
Part No. 1987029-2

Tes-800:
Part No. 1987030-1
Tes-800-E:
Part No. 1987030-2

Dust Cover for RJ-45 Port
5x enclosed

Dust Cover for RJ-45 Port
8x enclosed

Wall Mounting Kit enclosed
Industrial Ethernet Switches – TES Series (continued)

Technical Standard
- IEEE 802.3, 803.3u, 802.3x
- 10/100 Base TX
- UL, cUL, CE, FCC

Specific Features
**TES-500(-E):**
- 5-Port 10/100TX unmanaged Industrial Ethernet Switch
- 1K MAC address table
- 512 Kbits memory buffer
- Backplane (Switching Fabric) 1.0 Gbps

Specific Features
**TES-800(-E):**
- 8-Port 10/100TX unmanaged Industrial Ethernet Switch
- 2K MAC address table
- 1 Mbits memory buffer
- Backplane (Switching Fabric) 1.6 Gbps

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Technical Features

- Gigabit Ethernet Switch
- Compact housing
- Dimensions (W x H x D): 30 x 95 x 140 mm
- IP 30 protection
- Relay output
- Store-and-Forward Switching Architecture
- RJ-45 port support MDI/MDI-X auto-crossover
- Broadcast storm protection
- Embedded switch controller supports autonegotiation
- Redundant wide range power input +12 ~ 48 V DC
- Power polarity reverse protect
- Overload current re-settable fuse present
- Surge (EFT) protection 3000 V DC for power line
- 4000 V DC Ethernet ESD protection
- Flexible mounting: DIN-rail and panel mounting
- Operating temperatures
  • from –10 °C up to +60 °C (standard model)
  • e.g. TES-4001-SFP-X
  • from –40 °C up to +75 °C (wide operating temperature model – E-Type)
  • e.g. TES-4001-SFP-XE

Technical Standard

- IEEE 802.3, 803.3u, 802.3x, 802.3ab (fiber)
- UL, cUL, CE, FCC

Specific Features

TES-4001-SFP-X(E):

- 4-Port 10/100/1000TX + 1-Port SFP (Small Form factor Pluggable) unmanaged Industrial Ethernet Gigabit Switch
- 8K MAC address table
- Multimode and Singlemode Fibre 2 km/30 km (Wave-length 1310nm)
- Embedded memory buffer
- Backplane (Switching Fabric) 10.0 Gbps

Industrial Ethernet Media Converters – TEC Series

Technical Features
- Copper to Fibre Media Converter
- Compact housing
- Dimensions (W x H x D): 30 x 95 x 140 mm
- IP 30 protection
- Store-and-Forward Switching Architecture
- RJ-45 port support MDI/MDI-X auto-crossover
- Autonegotiation Speed, Half/Full Duplex
- DIP Switch for settings
- Built-In Link Lose Forwarding (LLF) & Link Fault Pass-Through (LFP) Technology
- Redundant wide range power input +12–48 V DC
- Power polarity reverse protect
- Overload current re-settable fuse present
- Surge (EFT) protection 3000 V DC for power line
- 4000 V DC Ethernet ESD protection
- Flexible mounting: DIN-rail and panel mounting
- Operating temperatures
  • from –10 °C up to +60 °C (standard model)
  • from –40 °C up to +75 °C (wide operating temperature model – E-Type) upon request

Technical Standard
- IEEE 802.3, 803.3u, 802.3x
- UL, cUL, CE, FCC

Specific Features TEC-100-MM-X:
- 1-Port 10/100TX to 1-Port SC Multi Mode Media Converter
- Fibre distance up to 2 km (Wave-length 1310 nm)

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Technical Features

■ 1-Port Sub-D to 2-Port RJ-45 Device Server
■ Compact housing
■ Dimensions (W x H x D): 72 x 100 x 32 mm
■ IP 30 protection
■ DIP Switch for settings
■ Wide range power input +12 – 48 V DC
■ Burst (EFT) protection 1 kV DC and 0.5 kV Surge for power line
■ Flexible mounting: DIN-rail and panel mounting
■ Operating temperatures from –10 °C up to +60 °C

Technical Standard

■ UL, cUL, CE, FCC

Specific Features TED-102-TMX:

■ 1 RS-232 / 422 / 485 port to 2 10/100TX Device Server
■ Event Notification by eMail, SNMP trap or Beeper
■ Software, Web, SNMP and Telnet management

TED-102-TMX:
Part No. 1987150-1

Wall Mounting Kit enclosed
Outlet – C-Profile/DIN-Rail Adapter

Industrial Ethernet Products

Catalog 1654253-2
Issued 9-2007

NEW PRODUCTS

DIN-Rail Adapter

■ Inclusive AMP-TWIST-6S SL Jack with Transparent Dust Cover
  Part No. 1711501-1

End Cover Set

■ Suitable for DIN-Rail Adapter
  Part No. 1711658-1

Description

After the cable termination, the Jack will be inserted in the adapter. A cable tie is used to ground the Jack with the integrated grounding tap. The complete kit can now be installed on DIN-rail mounting frames type C-Profile or TH35 acc. DIN EN60715.

A label field on the adapter (above the Jack) offers labeling possibilities using either a smear resistant pen or a customized label. The adapters can be stacked to a multi-adapter unit offering a high stability. As an option, colored dust covers can be used for color coding on port or application base.

Technical Features

■ IP 20 protection class
■ Fits on DIN-Rail TH35
■ 1 TE (18 mm) width (DIN 43880)
■ Integrated grounding tap
■ Color: Light grey (RAL 7035)
■ Optional colored dust covers
■ For AMP-TWIST-6S SL Jack

Colored Dust Covers
(50 Pieces)
Part No. 1711511-X

Suffix No. (for Color):
-2 = Black
-3 = White
-4 = Violet
-5 = Orange
-6 = Blue
-7 = Red
-8 = Green
-9 = Yellow

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Technical Features

- Capable for Industrial Environment
- Easy to strip
- Cat 5e
- UL and CE declaration
- 100 Ohms characteristic impedance
- PVC Jacket
- Outer diameter 6.5 ±0.2 mm

Industrial Ethernet Cable
ISO/IEC 11801 2nd EIA/TIA 568B
2 x 2 x 0.34 mm² (AWG 22) solid
Bending radius 50 mm minimum
Cat 5e
Part No. 1939707-1
100 m continuous

Industrial Ethernet Cable
ISO/IEC 11801 2nd EIA/TIA 568B
2 x 2 x 0.34 mm² (AWG 22) 7-stranded
Bending radius 50 mm minimum
Cat 5e
Part No. 1981897-1
100 m continuous

Industrial Ethernet Cable
ISO/IEC 11801 2nd EIA/TIA 568B
2 x 2 x 0.14 mm² (AWG 26) 7-stranded
Bending radius 50 mm minimum
Cat 5e
Part No. 1939708-1
100 m continuous

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Industrial Ethernet Products

Industrial Ethernet Cable Stripper Kit

**Basic Tool:**
Part No. 603995-2

**Advanced Tool with Cable Stop:**
Part No. 1981944-1
(soon available)

---

**Technical Features**
The AMP Cable Stripper Kit is capable for cutting and stripping five different sequential settings of Industrial Ethernet cable types.

**Description**
The AMP Cable Stripping Tool automatically strips cables with cable diameter range of 6.4 mm to 7.6 mm with minor adjustments.

For Industrial Ethernet Cable capable Part Numbers:
- **1939707-1** = 2 x 2 x 0.34 mm² (AWG 22) solid
- **1981897-1** = 2 x 2 x 0.34 mm² (AWG 22) 7-stranded
- **1939708-1** = 2 x 2 x 0.14 mm² (AWG 26) 7-stranded

**Tool Kit including**
- AMP Cable Stripper
- Blade Cassette (double use)
- V-Block as cable guidance
- Hex wrench for blade adjustment
- Service gauge
- Instruction Sheet: 411-78282

---

---

This patch cord type is also available as SECURE product, coded with 10 different mechanical keys and colors. To be used with SECURE Jacks.
Technical Features

- All cable assemblies tested and with test protocol
- Machine polished connectors for constant high quality
- Semi-tight cable construction

Description
This series of CPC products accepts RJ-45 inserts. The same CPC performance interface that is widely accepted in many markets has been expanded to handle Ethernet communications through Category 5 and 5e requirements.

Application
Industrial machinery, printers, communications equipment, diagnostic equipment and any potential application where Ethernet is used and where the connector requirements call for a sealed, rugged connector interface.

Technical Features
- For Category 5 and 5e cables
- Sealing performance per IP67
- Protective sealing cap available for the receptacles
- Positive lock coupling ring provides for reliable connections
- Available pass-through and field installable receptacle styles
- Unshielded and shielded product offerings

Technical Data

Mechanical
- Positive lock coupling ring
- Polarized for proper mating between the connector halves

Material
UV resistant and UL 94 V-0 housing material

Electrical
Meets TIA/EIA-568-B.2 Category 5 requirements

Operating Temperature
-55 °C to +105 °C

Standards & Specifications
Design Objective: 108-2203
Application Specification: 114-13137
Instruction Sheets: 408-8949, 408-8950, 408-8951, 408-10091
Plug Kit, Shielded
Solid Wire:
Part No. 1546907-1
Stranded Wire:
Part No. 1546907-2

Plug Kit, Unshielded
Solid Wire:
Part No. 1546876-1
Stranded Wire:
Part No. 1546876-2

Receptacle Kit, Shielded, Pass-Through RJ-45/RJ-45
Part No. 1986172-1

Receptacle Kit, Unshielded, Pass-Through RJ-45/RJ-45
Part No. 1776186-1

Receptacle Kit, Shielded, Wire Terminated
Part No. 1546908-1

Receptacle Kit, Unshielded, Wire Terminated
Part No. 1546877-1

Receptacle Sealing Caps, Part No. 207445-1 (with Plastic Strap)
Receptacle Sealing Caps, Part No. 208652-1 (with Beaded Chain)
**Technical Features**

- Positive lock coupling ring
- Polarized for proper mating between the connector halves
- Available pass-through receptacle style
- Bulkhead receptacle mounts to either inside or outside panel cutout
- Compliant to IEC 61076-3-106 – Variant 1

**Electrical**

- Meets TIA/EIA-568 Category 5e link requirements

**Standards & Specifications**

- Design Objective: 108-2198
- Application Specification: 114-13136

---

**Description**

This rugged RJ-45 connector meets the ODVA (Open Device Vendor Association) interoperability interface specification to support EtherNet/IP. It is designed for use in harsh environments, the connector features a quick-connect bayonet coupling mechanism.

**Application**

Industrial machinery, printers, communications equipment, diagnostic equipment and any potential application where Ethernet is used and where the connector requirements call for a sealed, rugged connector interface.

---

**Technical Data**

**Mechanical**

- Positive lock coupling ring
- Polarized for proper mating between the connector halves

**Material**

- UV resistant housing material
- Temperature Range: –40 °C to +85 °C
- Housings, Coupling Ring: UL 94 V-0
- Cable Fitting, Modular Plug, Tether: UL 94 V-2
- Gasket, Seal: UL 94 HBF

**Electrical**

- Meets TIA/EIA-568 Category 5e link requirements

---

**Industrial Circular Ethernet Connectors – Fiber**

- Connector Multi Mode: Part No. 1828618-1
- Connector Single Mode: Part No. 1828618-2
- Receptacle Multi Mode: Part No. 1828619-1
- Receptacle Single Mode: Part No. 1828619-2
- Connector Dust Cover: Part No. 1828740-1
- Receptacle Dust Cover: Part No. 1918177-1

---

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Industrial Circular Ethernet Connectors (ODVA) – Variant 1 (continued)

Plug Kit, Unshielded

Solid Wire:
Part No. 1738607-1

Stranded Wire:
Part No. 1738607-2

Receptacle Kit, Unshielded

Pass-Through:
Part No. 1738601-1

Protective Cover Assembly

Receptacle:
Part No. 1738611-1

All specifications subject to change. Consult Tyco Electronics for latest specifications.
Circular Sealed RJ-45 Connector – Variant 3

Technical Features

- Threaded outer connection contributes to:
  - Environmental sealing (IP67 rated)
  - Vibration resistance
  - Secure, robust connections
- Provided for reliable performance in electrical noisy conditions found on most factory floors
- Compatible with Category 5e cable
- Fully intermateable with unshielded products
- Compliant to IEC 61076-3-106 – Variant 3

Description

The Circular Sealed RJ-45 connector family of cable assemblies is designed to meet the various demanding manufacturing, processing, and commercial application requirements. Combining the existing RJ-45 connector technology with the Industry’s proven mini-circular format connectors, results in a series of products which greater protect the integrity of your data transmission – in different challenging operating environments.

The Circular Sealed RJ-45 connector line of receptacles offers a variety of packaging solutions: from widely accepted printed circuit board (PCB) mount configurations to bulkhead pass-through. Plug assemblies are offered in complete overmolded cordsets in various lengths and configurations. A field-attachable Plug connector, that utilizes standard termination tooling, is available to produce custom cable lengths.
Introduction

The Circular Sealed RJ-45 connector line of receptacles offers solutions for Ethernet field device connectivity in many challenging operating environments. All receptacles are compatible with standard commercial RJ-45 connectors, enabling a better solution for both harsh and benign environments.

Direct PCB Mount Receptacle

Low profile receptacle solders directly to a printed circuit board (PCB) – ideal for OEMs who wish to incorporate a robust, sealed connection into their field equipment. A sealed RJ-45 in the smallest possible package.

Material and Finish

Receptacle Shell: Acrylonitrile-Butadiene-Styrene (ABS) in standard version; Acrylonitrile-Styrene-Acrylate in UV stabilized version
O-Ring: Vition Rubber

Closure Cap

Maintains better sealing integrity when a connector is not mated with the receptacle.

Material

Closure Cap: Delrin (black)

**Standard Printed Circuit Board Receptacle**

Highly flexible solution that enables an OEM or end-user to solder a cable lead to an internal Ethernet connection.

**Material and Finish**

**Receptacle Shell:** Acrylonitrile-Butadiene-Styrene (ABS) in standard version; Acrylonitrile-Styrene-Acrylate in UV stabilized version

**O-Ring:** Nitrile Rubber

Closure Cap: Page 23
Bulkhead Pass-Through Receptacle

The perfect solution to bring Ethernet into a cabinet or control box. Simply mount the bulkhead product in a panel cutout, mate a sealed connector on the outside of the enclosure, and run a commercial patch cord from the back-side RJ-45 Jack to your PLC, I/O, or Ethernet Control Board. No conduit entry is required.

Material and Finish

Receptacle Shell:
Acrylonitrile-Butadiene-Styrene (ABS) in standard version;
Acrylonitrile-Styrene-Acrylate in UV stabilized version

O-Ring: Nitrile Rubber

Performance Characteristics

Operating Temperature:
-4° to 176°F [-20° to 80°C]

Return Loss: 5 dB @ 100 MHz

Shock/Vibration: Per IEC 60068-2-6

Environmental Rating: IEC IP67

TIA/EIA Rating:
Bulkhead Pass-Through are Category 5e compliant; Direct PCB Mount is Category 5 compliant; Standard PC board is not rated – additional customer termination is required

Knockout Hole for Receptacle: 1.031 [26.19 mm]

Mating Thread: UNC 1”–14

Circular Sealed RJ-45 Connector – Variant 3 (continued)

The cordsets utilize a standard RJ-45 plug, but add strain relief and a locking mechanism that creates a seal when mated with a receptacle.

Cordsets can be ordered in standard or custom lengths as an overmolded cordset or plug (see chart below).

Overmolded Cordsets, Double-Ended

Overmolded cordsets are available in two configurations.

When both cord ends are in a harsh environment, order the double-ended configuration with two industrial sealed plug connectors; for a cable with one end in a harsh environment, and the other in a sealed or office area, order with one industrial plug connector and one commercial grade plug for a better fit into a standard patch panel. Various cable types are available to best match the requirements of the applications. Solid core shielded PUR cable is used for longer “horizontal cross connection runs”, while stranded PVC is more appropriate for shorter “patch cord” applications where greater cable flexibility is desired. For extreme environmental conditions, Proplex™ cable provides a Kevlar inner wrap and an unmatched temperature range –94 °F to +221 °F [–70 °C to +105 °C]. Plugs are available in both RJ-45 and RJ-11 formats.

Material and Finish

Insert:
Acrylonitrile-Butadiene-Styrene (ABS)

Overmold:
Polyurethane (Solid Core & Proplex), PVC (Stranded)

Coupling Nut:
Acrylonitrile-Butadiene-Styrene (ABS) in standard version; Acrylonitrile-Styrene-Acrylate in UV stabilized version

Connector Specifications

Recommended Mating Torque:
12 inch-lbs. [1.36 Nm]

Bulk Cable Specifications

**Solid Core Cable**
- Conductors: 24 AWG solid bare copper, .020 [0.51] \[\text{nomal diameter}\]
- Insulation: .009 [0.23] of cellular polyethylene; .040 [1.00] nominal dia.
- Pair: 2 insulated conductors twisted together, lay lengths varied between pairs to minimize cross talk
- Core: 4 pairs cabled together
- Binder: Polyester tape, minimum 20% overlay min.
- Shield: Aluminum/polyester tape, 20% overlay min.
- Drain Wire: 24 AWG stranded (7/32) tin plated copper
- Jacket: Black polyurethane .025 [0.64] nom. thickness
- Operating Temperature: –4° to 176°F [-20°C to 80°C]
- Wiring Sequence: Choice of TIA/EIA 568A or 10 Base-T

**Stranded Cable**
- Conductors: 24 AWG stranded tinned copper
- Insulation: Polyolefin .037 [0.94] nominal diameter
- Pair: 2 insulated conductors twisted together, lay lengths varied between pairs to minimize cross talk
- Core: 4 pairs cabled together
- Binder: Polyester tape, minimum 20% overlay min.
- Shield: Inner: Aluminum mylar, 100% coverage; Outer: Tinned copper braid, 80% coverage
- Jacket: Black polyurethane .025 [0.64] nom. thickness
- Operating Temperature: –4° to 176°F [-20°C to 80°C]
- Wiring Sequence: Choice of TIA/EIA 568A or 10 Base-T

**Kevlar Wrapped Cable**
- Conductors: 26 AWG stranded bare copper
- Insulation: Color coded HFFR, halogen free, .035 [0.90] nominal dia.
- Pair: Cabled with Kevlar strength member and tape wrapped
- Core: 4 pairs cabled together
- Shield: Inner: Aluminum mylar, 100% coverage; Outer: Tinned copper braid, 80% coverage
- Jacket: Black polyurethane .025 [0.64] nom. thickness
- Operating Temperature: –94° to 221°F [-70° to 105°C]
- Wiring Sequence: Choice of TIA/EIA 568A or 10 Base-T

Restriction on the Use of Hazardous Substances (RoHS)

At Tyco Electronics, we’re ready to support your RoHS requirements. We’ve assessed more than 1.5 million end items/components for RoHS compliance, and issued new part numbers where any change was required to eliminate the restricted materials. Part numbers in this catalog are identified as:

**RoHS Compliant**
Part numbers in this catalog are RoHS Compliant, unless marked otherwise.
These products comply with European Union Directive 2002/95/EC as amended 1 January 2006 that restricts the use of lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE in certain electrical and electronic products sold into the EU as of 1 July 2006.

**Note:** For purposes of this Catalog, included within the definition of RoHS Compliant are products that are clearly “Out of Scope” of the RoHS Directive such as hand tools and other non-electrical accessories.

**Non-RoHS Compliant**
These part numbers are identified with a "◊" symbol. These products do not comply with the material restrictions of the European Union Directive 2002/95/EC.

**5 of 6 Compliant**
A "◊" symbol identifies these part numbers. These products do not fully comply with the European Union Directive 2002/95/EC because they contain lead in solderable interfaces (they do not contain any of the other five restricted substances above allowable limits). However, these products may be suitable for use in RoHS applications where there is an application-based exception for lead in solders, such as the server, storage, or networking infrastructure exemption.

**Note:** Information regarding RoHS compliance is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. For latest compliance status, refer to our website referenced below.

**Getting the Information You Need**
Our comprehensive on-line RoHS Customer Support Center provides a forum to answer your questions and support your RoHS needs. A RoHS FAQ (Frequently Asked Questions) is available with links to more detailed information. You can also submit RoHS questions and receive a response within 24 hours during a normal work week. The Support Center also provides:

- Cross-Reference from Non-compliant to Compliant Products
- Ability to browse RoHS Compliant Products in our on-line catalog: http://ecommas.tycoelectronics.com/commerce/alt/RohsAltHome.do
- Downloadable Technical Data Customer Information Presentation
- More detailed information regarding the definitions used above

So whatever your questions when it comes to RoHS, we’ve got the answers at www.tycoelectronics.com/leadfree
