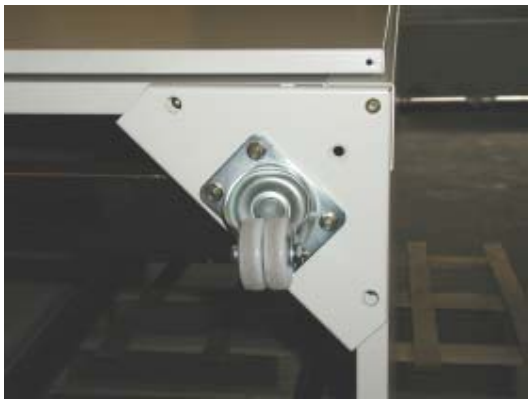
ESD428G	EC Steel Door, 42U, 800W



Base Options

EC cabinets come with a multifunctional corner plate with jacking feet fitted as standard. The plate can be used to bolt the cabinet to a floor, or alternatively it can also be fitted with castors.
An optional plinth kit is also available which covers the raised base area for a neat finish. The plinth plates can be individually removed to allow cable access if required.
Castors can be added to provide easy cabinet mobility. Jacking feet (already fitted) then secure the cabinet into position

Part Codes	
ECC	Set of 4 Castors
