Display

Helping your customers pick exactly what they want has never been easier with the new C.K packaging and merchandising solutions.

High impact packaging clearly displays the product, its size and application. In addition the packaging has been designed to give a high density display making sure you get the most from valuable space.

Even more impact is offered with our new modular display system. Designed for complete flexibility, the display allows us to make sure your customers take notice and buy.

C.K modular display systems are available, free on loan, to volume stockists. They remain the property of Carl Kammerling International and must be used to display C.K products only.
