testo 805, mini infrared thermometer

New mini infrared thermometer

The new testo 805 measures temperature without contact. Only 80 mm in size, it fits into any pocket and is always within reach. The TopSafe protection case makes the device watertight. The measuring range extends from -22 to +110 °C, while the ratio of measuring distance to measuring spot is 1:1. The mini infrared thermometer can be used anywhere, e.g. in receiving goods inspections or for checking the cold shelves of supermarkets. Also ideal for rapid measurements in the food industry and in the home.
