

A Leading Provider of Microcontrollers & Analog Semiconductors

MA160012 - PIC16F1937 Plug-in Module for PICDEM PIC18 Explorer Board. The PIC16F1937 Plug-in Module (PIM) is an accessory to the PICDEM PIC18 Explorer Board that allows users to easily experiment with the PIC16F193x/194x family of microcontrollers. PIC16F1937 is currently the superset member of the family and this PIM can be used to evaluate and develop with the PIC16F1933, PIC16F1934, PIC16F1936, PIC16F1937 and upcoming PIC16F1938, PIC16F1939, PIC16F1946, and PIC16F1947 products.
