

LED WORKLIGHT

Rechargeable Portable Floodlight

NIGHTSEARCHER

RECHARGEABLE LED WORKLIGHT

The LED WorkLight is a fully portable and rechargeable unit. The pivoting head, with 180 LEDs, offers a bright white floodlight beam. Using a rechargeable lead acid battery, the light will operate for up to 3 hours per charge.

Compact and lightweight, this unit is easy to carry and both chargers can be stored the back of the head for storage or transportation. Cool operation enables the LED WorkLight to be used in confined or limited spaces, making it the ideal solution for utility applications.

- 180 bright LEDs - Producing 2,340,000 MCD light output
- Rechargeable lead acid battery - Operates for 3 hours
- Quick recharge - Approximately 8 hours
- Battery over charge protection - No battery damage
- Cool operation - suitable for confined spaces
- Adjustable light head – 110° Up / Down
- Damage resistant housing – Robust and weatherproof
- **Supplied with:** Mains charger and vehicle chargers
