User Information

BLUEGRIP is a heavy duty natural latex coated glove with a brushed cotton knitted liner. It is ideal for handling in wet and dry conditions. It contains a bacteriostat and a fungicidal agent

Important: The gloves are not recommended for use with irritant, toxic or corrosive chemicals. You are advised to test and inspect the gloves before and periodically during use, punctures will significantly affect the protection provided. Vulcanised rubber contains traces of latex proteins.

Range Available: sizes and codes

Sizes	8	9	10
Product code	8402	8403	8404

Length: 25 cm **Thickness:** 2.1mm

These gloves are tested to European Standards and are in the INTERMEDIATE Safety Category.

NB: All protection levels quoted apply to fully coated parts of gloves only.

Glove Care

Natural rubber deteriorates in contact with substances with a petrol, mineral oil, paraffin or turpentine base or permanent contact with fats and oils. To get the best service from your gloves ensure that after use the gloves are rinsed in warm water and dabbed dry before taking them off.

Never store in direct sunlight or near heat.
