

Robustness and lightweight are the features condensed into this new cases, together with a particular care for recent safety standard requirements. They are water resistant and manufactured in wear resistant nylon and anti-tug fabric. They are ideal for use in low temperature environments, and perfect for heavy-duty use. The rigid injection moulded bottom compartment with adjustable dividers has been designed to remain steady even in the event of lateral collisions and accidental overturning of the bag.

General features:

- zip with padlockable metal clip
- shoulder belt
- rubber corner reinforcements

- bottom with adjustable dividers

- FLEXI POUCHES PLUS™ Patented Tool Fixing System (for more details see page 44)

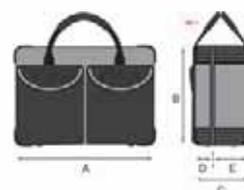

BAG & CASE PTS

- 2 extractable tool pallets with FLEXI POUCHES PLUS™
- bottom with adjustable dividers

BAG&CASE WH PTS

- 2 extractable tool pallets with FLEXI POUCHES PLUS™
- bottom with adjustable dividers
- telescopic handle
- wheels with ball bearings

INTERNAL DIMENSIONS (mm)

Model	A	B	C	D	E	
BAG & CASE PTS	410	310	150	50	100	3,8
BAG&CASE WH PTS	460	360	145	65	80	5,5

A practical alternative to the ABS tool cases, these bags are made from lightweight anti-tug fabric which is both strong and waterproof. Fitted with extractable tool pallets, these bags are ideal for situations where convenience is the deciding factor. General features:

- extractable tool pallets

- BAG 01 and BAG 02 back view

BAG 01

- 2 extractable tool pallets complete with clips and elastic bands to adjust the pallet space
- pouch filled with a special heat resistant material to contain a soldering iron

BAG 03

- 2 extractable tool pallets complete with clips and elastic bands to adjust the pallet space

CLIPS - perforated panels and plastic clips to fix the elastic strip in the required position.

- FLEXI POUCHES PLUS™ Patented Tool Fixing System (for more details see page 44)
