

## End Bracket CLIPFIX 35-5

---

### 1. Description

The end bracket provides a secure fit for the components on the NS 35/7,5 and NS 35/15 mounting rails. It is characterized by a pitch of 5.2 mm and makes it possible to accommodate ZB 5, ZBF 5 and KLM 2 for terminal strip marking. The end bracket offers "parking facilities" for FBS plug-in bridges and test plugs. In addition, it can be continuously bridged when combined with ST - QTC terminal blocks.

## 2. Technical Data
