

New:
WHP 200
Infrared
Under Board Heater

Weller Info No. 14

The new WHP 200 Under Board Heater – small and powerful!

The new WHP 200 from Weller is a new under board heater which although small in dimensions is very powerful. The WHP 200 is designed to be used on small multilayer PCBs to minimize the risk of thermal damage to boards and to speed up the repair process.

- **Universal application**

The WHP 200 is suitable for use with a range of consumer electronic boards. It is perfect for rework operations on digital camera, mobile phones, MP3 players, and PDA pcs.

- **Fast and efficient heating**

The infrared plate provides fast, precisely controlled heating to create an even substrate temperature.

- **Operating simplicity**

The WHP 200 is simple to use with very easy adjustment for the heating temperature.

The heating plate comes complete with a pcb board holder so there is no need to buy additional accessories.

- **Excellent Price- / Performance ratio**

The WHP under board heater provides an excellent Price-/ Performance balance.

Technical Data WHP 200

Dimensions (L x W x H):	193 x 193 x 84 mm
incl. pcb holder	7,6 x 7,6 x 3,3 inch
Dimensions Heating Zone (L x W) :	120 / 60 mm; 4,72 / 2,36 inch
Voltage:	230 V / 50/60 Hz
Power :	Heat Zone 200 W
	Medium Wave Infrared
Safety Class:	I
Regulation:	50°C – 400°C (150°F – 750°F)

Scope of delivery Infrared Under Board Heater WHP 200:

Under board heater WHP 200
 Mains cable
 pcb board holder
