

The model ST-127 is a 2 in 1 digital and analog moisture meter, used to measure the moisture level in sawn timber and hardened materials; plaster, concrete and mortar. It displays the moisture level in the material straightaway.

ST-127 Technical Data Sheet

Measuring principle:	Electrical resistance
Electrode length:	8mm
Electrodes:	Integrated, replaceable
Measuring range:	Wood: 1 - 45% Building Material: 0.1 – 2.4%
Display:	Wood: $\pm 1\%$
Accuracy:	Material: $\pm 0.1\%$
Auto power OFF:	After approx. 15 minutes
Battery:	3 x Cr2032, replaceable
Housing material:	Impact-proof plastic housing
Ambient temperature:	0 - 40°C
Ambient Relative humidity:	0 – 85 %RH
Dimensions:	139x47x25mm
Weight:	approximately 100g
Warranty:	1 year
