

SUPER-CLIP

▲ 11 different kinds of clip to suit any purpose

**Clip it on,
move it – and it's
ready again**

The clips may be placed anywhere on the perforated panels ▶

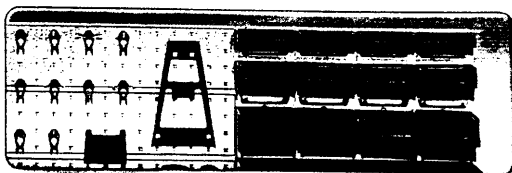

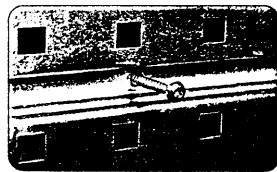

The clips can be mounted with a single click – and can be moved again just as easily ▶

The clips are very strong due to the choice of materials ▶

A couple of screws, and the panels are in place ▶

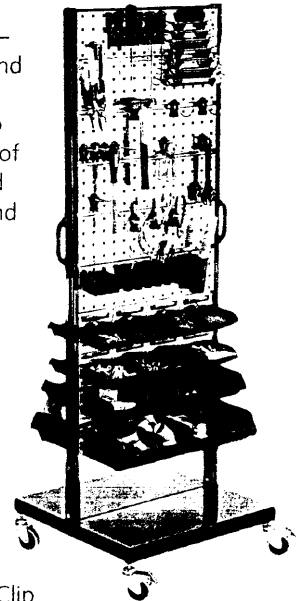

▲ Combined with raaco storage bins. The perfect solution

It wasn't raaco that came up with the idea of using hooks and perforated panels to hang tools, utilities and "awkward" parts. But we have developed the idea in well thought-out detail. We call the result Super-Clip.

Super-Clip is a wide range of hooks and holders that enables you to store tools, fittings, accessories and so on efficiently – which means making them easy to see and to access. What's more, Super-Clip is extremely easy to mount and to adapt to your individual requirements. The range of clips precisely matches raaco's perforated panels, which are made of tough steel and are available in two sizes.

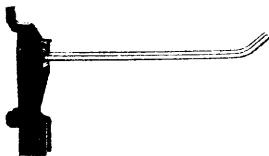

After that, the number of possible ways to mount Super-Clip is limited only by your imagination. The clips (there are 11 varieties) can be mounted on the panels in one push, without using tools. And the hooks can naturally be moved again just as easily.

As an alternative to using wall panels, Super-Clip can also be mounted on a floor stand or a raaco trolley. The Super-Clip range can also be combined with raaco storage boxes to create the perfect workshop storage system.
