TELEPHONE TALK KIT SPECIFICATION

VIDEK STOCK CODE: 1771

DESCRIPTION:

Telephone Talk uses standard Bell System RJ11 modular telephone connectors, cables and accessories. Unlike AppleTalk Mini Din 3 pins connectors, Telephone Talk uses a unique low resistance floating ground parallel circuit. As a result, a telephone Talk network can run up to 3000 ft through standard telephone wire.

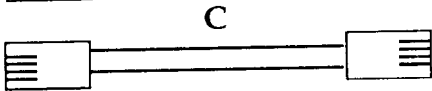

CONTENTS:

A) Connector Box with Mini 8 Pin Din Plug

B) RJ11 120Ω Terminator

C) RJ11 to RJ11 Connector Cable 2m

INSTALLATION:
