Mounting Systems

1. Bradyfoam Mounting tape (B-156)

Indoor/outdoor double-faced Foam tape.

This double coated foam tape is white polyethylene foam, coated on both sides with high-tack, high shear adhesive. Use foam tape for mounting, sealing insulating, cushioning and laminating. Bonds well to rough, irregular surfaces. Tape will adhere to most clean, dry and well unified surfaces.

Firm application pressure develops better adhesive contact and this improves bond strengths.

Minimum application temperature: 10 °C
