

Pipe Marking

For price information, see enclosed pricelist

Brady Snap-On

Brady Snap-On is a fast and easy way to mark rusty, wet or oily pipes. The Brady Snap-On is a transparent PVC cover on which you can apply any of the markers in our range. The result is that your self-adhesive marker remains readable and well protected.

Application:

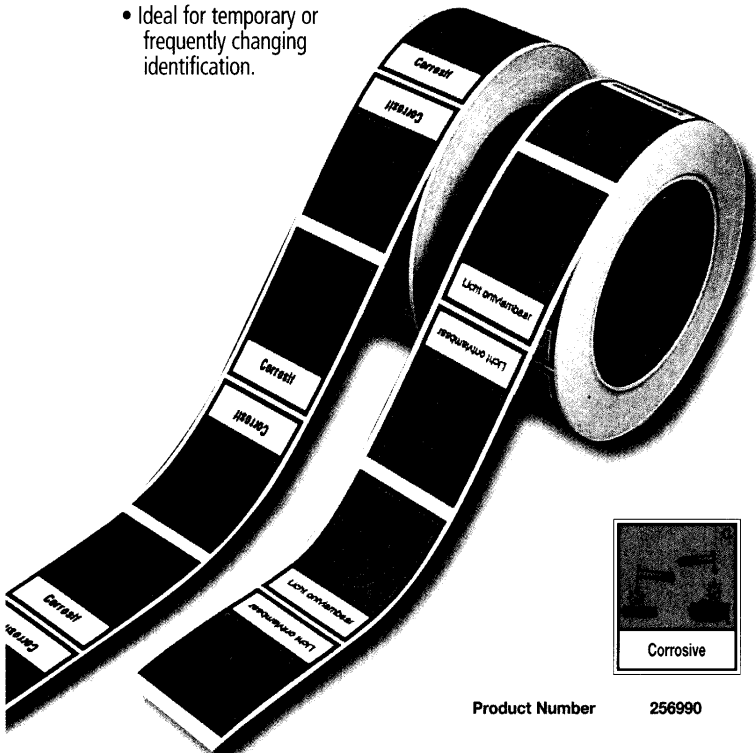

- Apply the self-adhesive marker onto the surface of the Snap-On.
- Unroll the Snap-On so that the marker is positioned in the centre.
- Snap it around the pipe and the Snap-On will return to its original shape.

Type	Marker-Format	Suitable for a pipe diameter of mm	Length Snap-On mm	Product Number
1	26 x 200	25 - 57	228	275240
2	37 x 284	40 - 83	300	275241
3	52 x 402	83 - 115	420	275242

Brady Snap-On offers the following advantages:

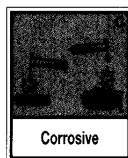

- Easy to use: simply uncoil and snap around pipe.
- Ideal for identifying rough, wet or oily pipes.
- Great flexibility: Snap-Ons can be used with our full range of self-adhesive markers.
- Perfect for use in extreme cold temperatures.
- Built-in UV protection.
- Ideal for temporary or frequently changing identification.

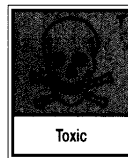

Symbols on rolls

Using the right symbols when identifying pipes is a legal requirement. To upgrade your current markers to conform to these rules, or to emphasize certain hazards, Brady offers a range of symbols on a roll.

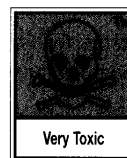

- Length of roll: 33 m
- Width of roll: 50 mm
- Material: laminated polyester (B-7541)
- Symbols/roll: 600
- Size of label: 45 mm W x 62 mm H
