The advanced versatility of the Pyropen is ideal for service jobs in out of the way places. No batteries or electricity needed. Lightweight and easy to carry around.

Powered by butane gas these professional tools will operate for up to 3 hours on one filling. And it's ready to solder in just 30 seconds.

The three models cover a wide range of applications and a variety of tips and accessories is available.

These top quality tools are built to the high standards of all Weller soldering equipment, so when you have to take the heat make sure it's a Weller Pyropen.

The Weller Pyropen range; convenience and flexibility.

The Weller Pyropen range offers many benefits for the outdoor servicing of electronics, radio and telecommunications. The WSTA 4 is ideal for single handed operation with its push button self-ignition. The brazing torch feature on the WSTA 3 offers even more flexibility, and the WSTA 2 Pyropen Jr. is so small and lightweight, it can be carried in a shirt pocket.

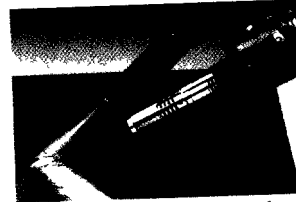

Top quality features in top quality Weller products.

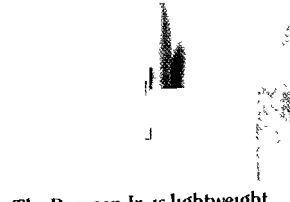

Instant push button ignition on the WSTA 4 gives more convenience.

Inactive hot air feature is available on all Pyropen models. Ideal for shrink tubing, soldering and desoldering of SMD's.

For brazing jobs up to 1300°C the soldering tip is exchanged with a torch ejector. Available on WSTA 1, WSTA 2 and WSTA 3.

The Pyropen Jr. is lightweight and when closed can be clipped safely into a shirt pocket.

Which Pyropen is for you?

WSTA 3 Pyropen soldering kit

DESCRIPTION
Butane gas operated soldering, brazing and hot air tool with adjustable temperature controlled by varying gas flow. Metal carrying case complete with 3.3mm soldering tip plus a 5.7mm hot blow tip, torch ejector, spanner, tool support clip, cleaning sponge and operation manual.

WSTA 1

DESCRIPTION
Pyropen with 3.3mm soldering tip plus protective plastic cap. Additional tips and accessories also available for both models.

WSTA 4 Self-igniting Pyropen

DESCRIPTION

WSTA 2 Pyropen Jr.

DESCRIPTION
Butane gas operated mini soldering, brazing and hot air tool with adjustable temperature controlled by varying gas flow. Lightweight aluminum body will not melt. Complete with 0.5mm tapered needle soldering tip, aluminum protective cap with pocket clip, and operation manual.

Pyropen tips and accessories.

Tips – To fit WSTA 1, WSTA 3 and WSTA 4:

WPT 1
Tapered
needle

WPT 2
2.0mm
Chisel

WPT 3
2.0mm
Spade

WPT 4
3.0mm
35° Spade

WPT 5
Offset
Tapered
needle

To fit WSTA 2:

WPT 15
Tapered
needle

WPT 16
2.6mm
Screw-
driver

WPT 17
2.0mm
Sloped
round

Hot blow nozzles –
To fit WSTA 1,
WSTA 3 and WSTA 4:

WHC 50
2.5mm
diameter

WHC 52
5.7mm
diameter

To fit WSTA 2:

WHC 54
1.5mm
diameter

WHC 55
4.9mm
diameter

Gas refill – All models. PGR1 Butane gas refill
