3 NEW MODELS

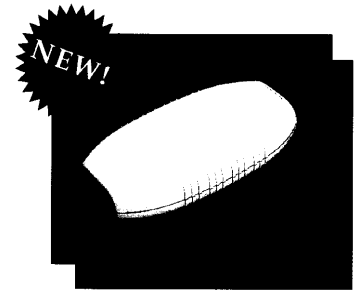

CUSTOM

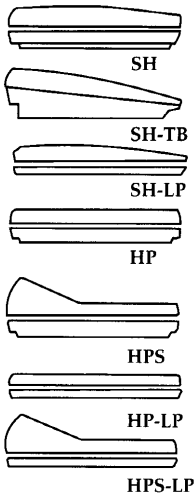

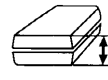

Twelve basic models make up the HP and HR Series, one of them ideally suited to your keypad, tester, or other handheld product. Individual prototyping kits include all necessary components; production units are packaged in bulk. Various models are available with battery compartments, sloped tops, and elongated design.

STANDARD OPTIONS

- Insert tooling areas
- Battery compartment
- Flame retardant materials
- EMI/RFI shielding
- Connector cutouts
- LCD adapters/bezels
- Surround strip to increase height
- Standard and custom membrane switches
- Custom panels & overlays
- Belt clip
- Wrist strap
