8.	2x	75mm Elbow with Reducer & Balancing Valve
9.	1x	Silicone Grease
10.	10x	75mm Cobra Clips
11.	10x	Screws

INSTRUCTIONS

The 4 arms should be attached using the items as shown in the diagram overleaf. The 75mm Pipework (item 1) should be fixed to a convenient place on the benches using the cobra clips and screws (items 10 & 11). A smear of silicone grease (item 9) is required on the "O" ring of all sleeve connections. Make sure all raw tube edges are tapered with a knife to ensure an easy fit into each sleeve.

Once the installation is completed the balancing valves should be adjusted to give an equal flow at each arm.

Should you experience any difficulties with the installation please call our technical help line on 01202 896199
