***“Now that’s what I call  
a comfortable iron.***

*The people from Weller  
have just brought it out.*

*It has the lot,  
light-weight, balance, sensitivity  
to pressure and less pull  
from the cable.*

*They make it in three outputs,  
12, 15 and 20 Watts.*

*It has tips that won’t give up  
plus a stand – even a plug!!*

***They call it Weller 2000.***

*If I were me, I’d buy one!”*

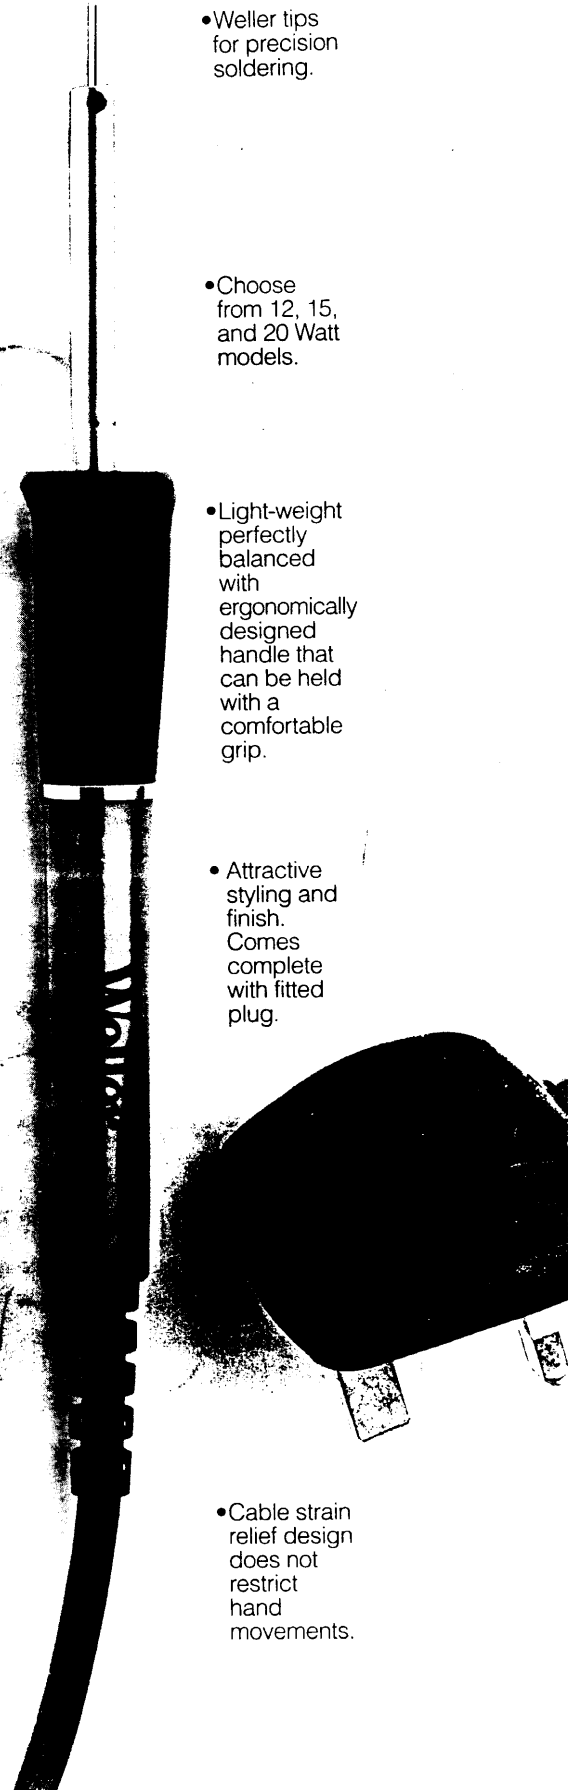

•Weller tips  
for precision  
soldering.

•Choose  
from 12, 15,  
and 20 Watt  
models.

•Light-weight
