PCB Mounting Clip
MC55i

Feature:
- PCB mounting clip design for Cinterion wireless module.

Specifications:

Board to Board Connector Information:
- Cinterion module board side header: Hirose DF12C (3.0) - 50DS - 0.5V (86).
- PCB mating board side receptacle: Hirose DF12E (5.0) - 50DP - 0.5V (86).
- Size: 50 pins.
- Stacking height: 5.0mm.
- PCB mating board thickness: 1.6mm.
- Pulling force (module clip on PCB): Minimum 10N, Maximum 150N.

Clip Specifications:
Physical:
- Clip material: PC-940A.
- Clip colour: Black.
- RoHS compliant.
- Operating temperature: -40°C to +100°C.

Assembled Dimensions

Dimensions: Millimetres
Module Clip PCB Footprint and Connector Receptacle Dimensions:

Mounting Clip for Cinterion:
Mounting Instructions (Module into Clip):

1st Step:
Orientate the module in the clip: the side with a Hirose 50 pin connector is the side which goes into the clip first. Insert the module at an inclined angle, sliding the edge of the PCB underneath the two retaining lugs of the clip.

2nd Step:
Press the other side of the module vertically downwards to fit it into the clip.
Mounting Instructions (Module + Clip into Circuit Board):

1st Step:
Orientate the clip legs with the PCB mounting holes with 'GT-MC55i-CLIP' characters upright.
- 4 holes at the top, near the Hirose receptacle.
- 2 holes at the bottom.

2nd Step:
Insert the 2 legs of the clip first, into the corresponding holes on the PCB footprint.
Be sure to completely insert the 2 legs before beginning the 3rd step.

3rd Step:
While inserting the other 4 legs, the Hirose 50 pin connector will, at the same time, match into the receptacle on the PCB.
Please be sure the direction of the force exerted on the clip/module is at a 45° angle downwards (as suggested by the arrow in the schematic) and not vertically at 90°.
