

2m FlexUSB™ A Male to A Female Extension Cable

Extend your USB A/B cable PLUS with 180° rotation, our FlexUSB cable connects your USB devices in almost any position!

Item #:81588

A/A cables are designed to extend the reach of your existing USB A/B cable. The FlexUSB A/A Extension cable not only extends the length of your cables, it is the world's first USB A/A cable with a flexible connector! With patent-pending FlexConnex™ technology, the FlexUSB cable can be used in difficult-to-reach and confined spaces. Don't worry about inconvenient locations or awkward orientation of your USB ports. The FlexUSB cable is the ideal solution for connecting your USB devices to your laptop, desktop PC, or Mac® and to plug into an open USB port from any angle.

Use it with portable USB storage devices, CD/ DVD drives, MP3 players, wireless devices, external input, mice etc. With +/- 90° horizontal and vertical hinges, you can connect your USB devices in a position most convenient for you. Ratcheting positions provide stability to hold the adapter in the position you desire. Get your FlexUSB cable today and be on your way to simplifying your connections!
