New, premium design

The new BlackBerry Curve 3G is designed to help you get more out of every day. With soft-touch materials, an ergonomic full QWERTY keyboard, and a touch-sensitive optical trackpad you can stay on top of it all, with ease.

Master your everyday with help from 3G

Experience better browsing, fast attachment viewing, quicker downloading and more. With the new BlackBerry Curve 3G almost everything you do is faster than before. Plus, improved Wi-Fi® lets you connect with your data quickly, wherever there's a hot spot. And GPS gets you wherever you want to be.

Stay accessible with push

BlackBerry push technology means no more waiting around. Without you lifting a finger, your emails, BBM™ messages, Facebook® updates, Twitter™ notifications and more will be automatically updated in seconds.

Chat in real-time with BBM™

With BBM™, your messages appear as quick as you can type. A 'D' will appear on your screen to show your message has been delivered. An 'R' when it's been read. BBM™ keeps you in touch with the people that matter and help you get more out of your everyday.

Trackpad Navigation: it's how you scroll

Getting around your smartphone and sending messages shouldn't be a chore. That's why the new BlackBerry Curve 3G smartphone comes with a touch-sensitive optical trackpad. Just glide, scroll, and press to select what you want.

Media at your fingertips – anywhere you go

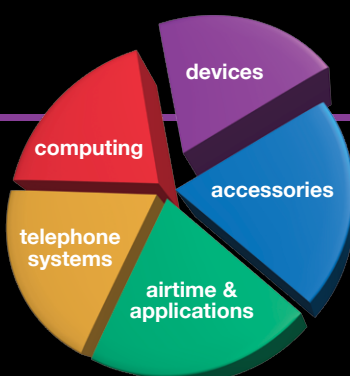

Carry, watch and share your videos, pictures, files and more. Connect your BlackBerry Curve 3G to your Mac™ or PC with BlackBerry® Desktop Software and sync your music or media in a few easy clicks. When your collection grows, just pop in a microSD card to hold more of your favourite media files. Ready to watch? Control your media files with easy-to-access media keys on the top of your BlackBerry Curve 3G smartphone.

Multitasking made easy

You can use all of your favourite apps at the same time – there's no need to close one to use another. Which means you can BBM™ message your friends, update your status on Facebook®, read incoming emails and more, simultaneously. Plus with 3G, you can talk and surf at the same time so multitasking is made even easier.

Get personal with it

Create a complete BlackBerry experience just for you. Choose intuitive apps designed just for BlackBerry smartphones from BlackBerry App World™, including games, entertainment, finance and more. Then customise your smartphone with the little things that'll show off your personal style. Set custom ringtones and notifications, and add cool wallpapers and themes.
