Charismatic line, Comfortable grip

If you are with an expressive style, you will appreciate the charismatic design statement Monte makes. The sleek form with visually striking colour stripe is impressive to look at, making it the stylish choice for modern users that is full of personality.

Enhanced Touch UI

The enhanced touch user interface enables you to navigate the phone's features with the greatest of ease. Stylish and intuitive graphics guide you to the mobile's applications in a home screen that extends so favourite links aren't limited to a few widgets and apps. Customize and operate the mobile with ease and style.

Internet through Wi-Fi & 3G

Enjoy wireless freedom from anywhere. Whether through a Wi-Fi hotspot or 3G connection, you will have ready and convenient access to the internet, email and blogs. The built in accelerometer automatically adjusts to portrait or landscape views, letting you get the best views out of their mobile.

GPS & Google Map

The mobile's GPS capabilities provide you with convenient location based services including Google Latitude, which shares the user's location with friends, and Geo-tagging, which imprints photos with geographic tags. Through Google Latitude and Geo-tagging, you can share your lives and experiences with friends. Moreover, organizing photos and sharing information about photos has never been easier.

Native SNS Application

Social networking keeps you connected to their social worlds through their mobile. Checking friends' updates or uploaded photos right on the mobile has never been easier. Users will never be out of touch, and their social calendars will always be up to date.

Music

You will have music on demand on your mobile. Sound quality is attuned to genre so you can enjoy the highest audio fidelity whether you listen to classical, jazz or rock. True-to-life sound quality through DNSe offers you various 3D sound effects and Find Music function helps you identify new songs and purchase them directly to the mobile. You will also enjoy listening freedom whether using regular earphones (no jack adaptor required) or wireless Bluetooth ones.

3.2MP Camera

You don't need to lug around a separate digital camera as long as they have their mobile. The embedded 3.2 MP camera has advanced photo features including photo editing, Smile Shot and Face Detection, so you will be able to ensure the photos always come out looking great.
