

WD1M data sheet.

Electronically controlled power unit with high speed regulation for use with Weller micro soldering tools and micro desoldering tweezers.

Features

Digital electronic control for Weller industrial soldering irons up to 150 watt rating.

High speed regulation for micro tools WMRP and WMRT.

Temperature range 50 to 450 deg C.

LCD digital display.

3 selectable pre-set temperatures

Automatic tool recognition

Programmable menu to set Temperature Offset, Set Back time, Off Time, Stand By temperature, Window of operation, and Lock out.

Safety Class 1

Potential free plug (factory set as hard gounded)

Dimensions 134 x 108 x 147 mm (L x W x H)

Comprises

Power unit.

Power Cord with BS 1362 plug.

Potential Free Plug.

Compatible Tools.

WP80, WSP80, LR21, WP120, LR82, FE50, FE75, FE80, WHP80, WMP, WSB80, WSB150, WST82, WTA50, WMRP, WMRT.
