

Easy to use, 6-LED hand-held digital microscope with a USB interface.

High resolution magnification at your fingertips. Detailed examination of any area you choose.

- Active Pixel Technology produces sharp images and accurate color reproduction.
- The LED's can be turned on or off, brightness can be adjusted using control wheel on body, and an adjustable magnification from 10X 200X, all in one compact lens.
- Microtouch Shutter trigger allows for convenient image capture when in hand held mode or mounted on a stand.
- Just plug into a PC and you are set to go.
- Available in UV version consisting of 6 UV LED lights operating at 405nm.

Can be used for science and engineering work, dermatology, detailed repair, assembly and quality control (i.e. electronics, mechanical, etc), hobbies & collecting (coin, stamp, watch, jewelry, etc.), law enforcement (counterfeit ID, crime lab, etc), entertainment and much more.

Our Mighty Scope comes with software for easy capture of images or videos (measurement function included) and adjustable stand. Optional boom type stand is also available.
