

PicoScope Carry Case

The PicoScope carry case can be used to protect your PicoScope Oscilloscope when used in the field, and to safely store it when it's not needed.

The case uses foam to securely hold the PicoScope 2202, 3200 range and 4000[#] Series in place, preventing movement and providing cushioning to prevent damage. Space is also provided to store leads and scope probes.

Note: the PicoScope carry case is also supplied with our oscilloscope

kits(http://www.picotech.com/oscilloscope_kits.html) .

[#] Not suitable for use with the PicoScope 4262.

External dimensions: approximately 340 x 270 x 83 mm (13.4 x 10.6 x 3.3 in)
