

# Mio Spirit 695 LM

**T**he new Spirit 695 LM is packed with practical features and comes with Lifetime Map Updates, so you never have to worry about new maps or road changes anymore. The Spirit 695 LM will guide you to the new streets and addresses without hesitation. Simply connect the Spirit 695 LM to your PC and install the MioMore desktop software to check when updates are available. You will receive new maps for the lifetime of your device, up to four times a year\*.

Choose the route that best suits your needs before you hit the road with the Choice of Routes feature. Preview four different routes on your screen – fastest, shortest, easiest and most economical – instead of just one.

IQ Routes™ uses real-life information collected from millions of drivers to optimize the route that is calculated: giving you the optimal way, any time of day. The enhanced LearnMe Pro™ monitors and learns your driving style, providing you with personalised routes to suit your preferences. You will see the improvement in your routes and estimated time of arrival on the screen. Real-time traffic information alerts you to delays on the roads ahead, saving you valuable time by avoiding hold-ups and congestion.

Find parking places more easily with the Parking Assistance feature which automatically shows a list of parking spaces when you are within 1km of your destination, so you don't have to search for a nearby car park. As you would expect Pedestrian Mode guides when you're on foot and helps you explore new places not accessible by car.

The Spirit 695 LM also allows you to quickly access your personal favourites by saving them under Near Me. So if you often visit Italian restaurants, you can list them here for even faster access. The smart feature 'Find My Car' will be a big help if you park your car in a hurry, with no idea where you parked it upon return. Just take the device with you when you leave your car and it will help you find your car easily.

## > Key Features
