SERIES 160/163 plug and socket connectors are available in 2, 3 and 5 pole lengths. The shrouding of the plug connectors prevent the two parts being incorrectly assembled. The 3 and 5 pole plug sections (163ST) have a leading earth pin which is 2mm longer, situated in the centre pole. The socket section (160BU) has a shroud to ensure that the plugs are totally enclosed before the earth connection is made.

Covers and base plates, 163ZEL/ABK are available in 3 and 5 pole versions only. The cover (163ABK) can be used by snapping onto the plug or socket or both. The base plate (163ZEL) is supplied complete with an integral cord grip and screws which are supplied loose.

TECHNICAL DETAILS

22

Mouldings:	nylon 6.6 (PA6/6), UL94 V2		
Inserts:	brass, tinned		
Screws:	M3 steel, zinc plated, chromed		
Screw tightening torque:	max: 0.5 Nm		
Temp. limits:	max short term: 160° C		
	continuous: 100° C		
Current rating:	to EN 61 984: 16A / 250v at 70° C		
Voltage rating:	see approvals		
Conductor size:	without wire protectors: 4mm ²		
	with wire protectors: 2.5mm ²		
Wire stripping length:	6.5mm - 7mm		
Protection class:	IP 20		
	IP 40 when connected
