Personalise it

It's your home screen

Make the home screen yours with everything you want just a touch away. You can add shortcuts to handy apps like Nokia Browser, and you can setup email and Facebook to see updates and mail as it arrives. It's up to you. Then once everything is in place, you can launch it with a tap.

Surf more for less

Fast mobile internet

Get the speed that you need when you want to go online. With fast connections, 1 GHz of processing power, and clever data compression, the Nokia Asha 300 loads web pages faster using less data. Nokia Browser even gives you dynamic updates to help you find the best local content.

Type fast

In touch with one touch

The Nokia Asha 300 makes staying in touch really easy. Update your Facebook status or send a tweet. Use your personal email accounts and see when fresh mail arrives instantly. Or hit the messaging key to create a new message or to go straight to your messaging inbox. And type it all quickly with the comfortable keypad.

Great pictures

Catch the moment

Use the 5 MP camera to snap all the nice things and the surprising things you find in your daily life. It's easy to edit your photos to make them look even better. And if you've caught something really special on camera you can share it on Facebook in an instant.

Great gaming

Time to play

Get to the games with a swipe. The powerful processor and colourful touch screen make playing them a whole lot of fun. To get you started the Nokia Asha 300 comes with popular games including Angry Birds Lite. To get more games head to Store.

Music and radio

Touch control

Fill your phone with your favourite songs or enjoy the built-in FM radio. The Nokia Asha 300 supports memory cards of up to 32 GB so you can add as much memory as you need. Better still, you can add shortcuts for music and radio to your home screen and launch them with a touch.
