

# Digital Repair System

**DURATOOL**

## Soldering Station

### Features:

- Especially designed for lead-free soldering
- Heating up from the room temperature to 350°C in 30 seconds
- Intelligent soldering : the power alter with the solder point. The large range of the power can do a wonderful soldering even the solder point is so big. Prevent bad connecting due to the cold soldering
- Extraordinary heat energy compensation : the supernatural speed of the temperature compensation can ensure the temperature in peak performance at all times. It is very suitable for lead free soldering and at the same time also an absolutely necessarily tool in some special low temperature conditions
- Long life soldering tip : the soldering temperature lowered down and the life of the soldering tip prolonged comparatively. The quick heat and the static and precision temperature are for soldering all of the component to sensitive temperature such as QFP, PLCC, SOP and BGA

### Specification Table

Voltage Supply (V ac)	Soldering Iron Voltage (V ac)	Power (Heat up Rating 30 W) (W)	Temperature (°C)	Function Display	Part Number
220 to 240	24	60	160 to 480	LCD Display	D00673
