

Feature:

- This is a high purity liquefied gas designed for recharging portable gas powered equipment

Applications:

Can be used to refill portable soldering irons, lighters, igniters and glue guns, and any other portable gas powered appliances

Directions:

Invert can and press nozzle firmly into filler valve, using appropriate adaptor if required. Always follow the appliance manufacturer's instructions

Note:

Highly flammable liquefied propellant gas. Do not smoke during use, and avoid contact with naked flames and any ignition source

Warning:

Deliberately inhaling the contents may be harmful or even fatal

Technical Information

| | |
|------------------|--|
| Appearance | Gas at room temperature |
| Odour | Distinctive odour |
| SG at 25°C | 0.546 |
| Pressure at 25°C | 4 bar |
| Flammability | Classified As extremely flammable under CHIP regulations |
| Flashpoint | Not Applicable In sealed aerosol |

Storage:

The product may be stored at normal temperatures and has a shelf life of not less than 36 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flames

Part Number Table

| Description | Part Number |
|----------------------------|-------------|
| Butane Gas, 200 ml Aerosol | PPC113 |
