

HDMI Equaliser / Repeater

CP269H: HDMI Equaliser

Provides 8dB input equalization to eliminate digital noise and compensate for long HDMI cable loss.

- HDMI Compliant

CP263H: HDMI Repeater

Boosts HDMI source signals and extends the length of HDMI transmission over a copper based HDMI cable by 12m at 1080p/UXGA (longer extensions possible at lower data rates). It works by regenerating the incoming HDMI signal by decoding and re-encoding it to a new standard HDMI signal so it can extend the transmission range without degradation.

- HDCP compliant.

Common Features:

- Plug and play, easy to install and use
- Dimensions (WxHxD): 76 x 30 x 72mm
- Supplied with power adaptor and user manual
