

Expander Nylon

EXP 21/23R:

Features:

- This series offers a standard steel expander which is natural colour nylon 6 and is fitted to an M10 hexagonal headed set screw

Specifications:

Thread Size	: M10
Head Type	: Hex
External Length / Height	: 48mm
Material	: Nylon 6
Torsion Max	: 12N-m

EXP 24/27S:

Recommended Uses:

For attaching a bolt hole type castor to a tube or square hollow section. It is important not to overtighten as this can damage the expander causing the castor to become loose.

We advise an expander should not to be used where there are large temperature variations.

The maximum recommended load for these expander fittings is 100kg.

Part Number Table

Description	Internal Tube Size	Part Number
Expander, Round, Nylon	21 to 23*	EXP 21/23R
Expander, Square, Nylon	24 to 27**	EXP 24/27S

*Round expander for tube.

** Square expander for square hollow section.
