

PULSE

CD/SD/USB MEDIA PLAYER

Model: DMP-100

www.pulse-audio.co.uk

Safety Information

The lightning bolt within a triangle is intended to alert the user to the presence of dangerous voltage levels within the product's enclosure.

To reduce the risk of electric shock, do not remove cover of this device. There are no user serviceable parts inside. Refer servicing only to qualified service personnel.

The exclamation point within a triangle is intended to alert the user to important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

This voltage may be of sufficient magnitude to constitute an electric shock risk.

Safety Precautions

- Read and retain these instructions.
- Follow all instructions and heed warnings.
- Do not use this device near water or in high humidity areas.
- If the surface becomes dirty, clean only with dry cloth, do not use solvents or thinners.
- Install in accordance with the manufacturer's instructions.
- Do not install near heat sources such as radiators, stoves or other devices that produce heat.
- Do not defeat the safety purpose of the grounded plug. The BS1363A 13A mains plug has two blades and a third ground prong. The wide blade or third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on, pinched, cut or stressed at the plugs (mains socket outlet and where it enters the media player).
- Only use accessories specified by the manufacturer.
- Unplug the device during lightning storms or when unused for an extended time.
- Refer all servicing to qualified personnel.
- This device must not be exposed to water in any way. No object filled with liquids should be placed on apparatus.
- For installation, mount unit securely in a 19" rack, or on a solid flat surface.

Pulse 1U 19" CD/SD/USB Media Player

The PULSE DMP-100 is a fully featured, 19" rack mounting professional audio media player, designed to playback audio CDs, MP3 & WMA files. The DMP-100 provides both high quality and reliable performance for all applications including schools, community centres, retail shops and industrial installations.

This unit includes a host of features, along with an impressive list of specifications, which are detailed over the next pages. Please take the time to read this document completely prior to installation of this product. Should you have questions regarding installation or operation of this unit, please contact your Pulse Retailer or Distributor.

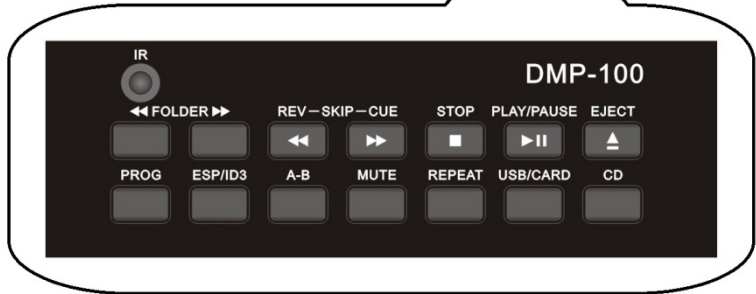

Features

- CD, SD/MMC card & USB 2.0 media player
- Mechanical anti-shock & 40 second ESP (Electronic Skip Protection)
- LCD screen
- Plays MP3 & WMA audio files
- ID3 tags displayed (scrolling)
- Playback: Continuous, Random & User Programmed
- Repeat functions: Track, Folder or All
- Outputs: 2x XLR (L+R)
- IR remote control (batteries not included)
- 1U 19" Rack mountable with removable rack ears

Included Accessories

- Instruction manual
- IR remote control
- UK power cable

Advanced Functions & Settings

Program a play list:

MP3 & WMA files:

- Insert audio source (CD/SD/USB).
- Press **PROG** button.

Display will now show:

- The folder number will now be flashing, to select the folder number use the **REV/CUE** or number buttons.
- Press **PROG** when the correct folder number is displayed.
- The track numbers will now be flashing, to select the required track number use the **REV/CUE** or number buttons.
- Press **PROG** when the correct track number is displayed.
- Repeat folder & track selection process until playlist is complete.
- Once playlist is complete, press **PLAY** to start playback.
- Use **REV/CUE** buttons to skip between tracks in playlist.

Standard audio CD:

- Insert audio CD.
- Press **PROG** button.

Display will now show:

- Use the **REV/CUE** or the number buttons to select the track number required to play in the displayed play order number.
- Press **PROG** when the correct track number is displayed.
- Repeat track selection process until playlist is complete.
- Once playlist is complete, press **PLAY** to start playback.
- Use **REV/CUE** buttons to skip between tracks in playlist.

To replay a programmed playlist:

- To replay the programmed playlist, press **PROG** button, then press **PLAY**.
- Your playlist is now start to play again.

Clear a programmed playlist:

- To clear the programmed playlist, press **PROG** button, then press **STOP**.
- Your playlist is now cleared.

Compliance

When this product reaches the end of its life, do not dispose with household waste. See www.recycle-more.co.uk for details of how to dispose of PULSE products in an environmentally sound fashion, or contact PULSE directly via www.pulse-audio.co.uk

Warranty

Pulse products are warranted, by Pulse, against manufacturer defects for a period of one year from the original date of purchase. This warranty is limited to manufacturer defects, in either materials or workmanship. PULSE, or any other worldwide divisions of Premier Farnell PLC, is not responsible for any consequential or inconsequential damage to any other component, structure or the cost of installation or removal of said items. Defective items should be returned to the retailer from whom they were originally purchased.

This warranty will not cover damage due to improper use or items damaged by weather. Batteries are covered by a 90 day warranty from date of purchase.

For questions or specific information regarding warranty replacement or repair, please contact:
