

Cotton cloth labels, manual marking

- **HELASIGN, Material 265 (White), A4 Sheets**

Features and Benefits

These labels are manufactured from a robust cotton fabric which is easily inscribed and applied. Text remains permanently legible and will not smudge or run. These labels can be removed without leaving a sticky residue. Labels are supplied on A4 sheets with or without a black border. For professional hand inscriptions, we recommend the T82 marker pen, which has fast-drying and UV-resistant ink.

Helatag cotton fabric labels will adhere to most surfaces.

Manual Marking

Material Data	
Material	Type 265, Cotton cloth, white (WH)
Adhesive	Synthetic rubber
Thickness of Foil (µm)	150.0
Operating Temperature	-40 °C to +121 °C
Curing Temperature	From +4 °C
Chem. Material Properties	resistant to oils and water, removable without residue

More information on marker pens can be found on page 495.
