

## Breadboard trim potentiometer - 10K

ID: 356

### Description

These are our favorite trimpots, perfect for breadboarding and prototyping. They have a long grippy adjustment knob and with 0.1" spacing they plug into breadboards or perfboards with ease.

This is the same pot that comes with our character LCDs and tutorial packs

### Technical Details

- Body size: 0.375" x 0.375" x 0.19" (9.5mm x 9.5mm x 4.9mm)
