

SPKL 967/9 TORX ® BO Multicolour Hex Key Set, Black Laser

9 pieces in two-component clip, with Magnetizer. For inside TORX ® screws and TORX ® screws with pin (BO = hole). TORX ® BO (BO = hole) on the short arm, TORX ® ball end on the long arm, thereby screwing possible even in a slightly inclined state. Safe operation even under difficult circumstances. Wrench with plastic coating (SPKL) are made of round grip-friendly material. The coating makes the work even at low temperatures pleasant and safe. All angles are key quickly by their size and color coding identification on hand. The wear-free material of the clip ensures secure retention of key angles and easy removal.
