

TEN 6WIN Series

6W, Ultra-Wide Input Range DIP, Single & Dual Output DC/DC Converters

Features

- ▶ DIP-24 Plastic Package
- ▶ Ultra-wide 4:1 Input Range
- ▶ High Efficiency up to 84%
- ▶ Operating Temp. Range -40°C to +85°C
- ▶ Overload Protection
- ▶ I/O-isolation 1500VDC (opt. 3000VDC)
- ▶ Input Filter meets EN 55022, class A and FCC, level A
- ▶ 3 Years Product Warranty

Applications

- ▶ Distributed power architectures
- ▶ Workstations
- ▶ Computer equipment
- ▶ Communications equipment

General Description

The TRACO TEN 6WIN series is a new range of high performance dc-dc converter modules with 6W output power, featuring ultra-wide 4:1 input voltage ranges and tight output voltage regulation. The product comes in a DIP-24 package with industry standard footprint.

Excellent efficiency allows an operation temperature range of -40°C to +85°C . Standard features include overload protection. Typical applications for these cost optimized converters are battery powered equipment, instrumentation, datacom and industrial electronics.

Recommended PCB Layout with Input Filter

To: comply with EN55022 CLASS B following components are needed:

Model	Component	Value
TEN 6-24XXWIN	C1,C2,C3	4.7µF/50V 1206 X7R
	L1	4.7µH SCD0403T/1.7A
	T1	0.64mH; Common choke,core:T10*2.5*5 H5B2/HPN155φ0.37*16T
TEN 6-48XXWIN	C1,C2,C3	1µF/50V 1206 X7R
	L1	4.7µH SCD0403T/1.7A
	T1	0.81mH; Common choke,core:T10*2.5*5 H5B2/HPN155φ0.37*18T

Input Source Impedance

The power module should be connected to a low ac-impedance input source. Highly inductive source impedances can affect the stability of the power module.

In applications where power is supplied over long lines and output loading is high, it may be necessary to use a capacitor at the input to ensure startup.

Capacitor mounted close to the power module helps ensure stability of the unit, it is recommended to use a good quality low Equivalent Series Resistance (ESR < 1.0 Ω at 100 KHz) capacitor of a 4.7µF for the 24V input devices and a 2.2µF for the 48V devices.

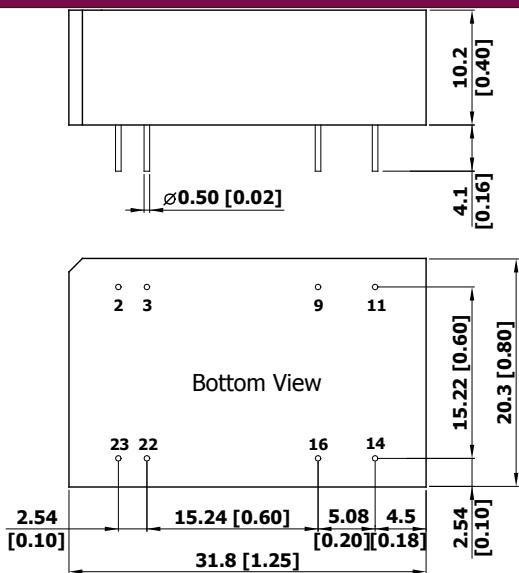

Output Over Current Protection

To provide protection in a fault (output overload) condition, the unit is equipped with internal current limiting circuitry and can endure current limiting for an unlimited duration. At the point of current-limit inception, the unit shifts from voltage control to current control. The unit operates normally once the output current is brought back into its specified range.

Short Circuitry Protection

Continuous, hiccup and auto-recovery mode. During short circuit, converter still shut down, The average current during this condition will be very low and the device will be safe in this condition.

TEN 6-4812WIN	18-75	12	500	149	84
TEN 6-4813WIN	18-75	15	400	149	84
TEN 6-4815WIN	18-75	24	250	149	84
TEN 6-4821WIN	18-75	±5	±500	130	80
TEN 6-4822WIN	18-75	±12	±250	149	84
TEN 6-4823WIN	18-75	±15	±200	149	84

Note 1. Maximum value at nominal input voltage and full load of standard type.

Note 2. Typical value at nominal input voltage and full load.

Safety and Installation Instruction**Fusing Consideration**

Caution: This power module is not internally fused. An input line fuse must always be used.

This encapsulated power module can be used in a wide variety of applications, ranging from simple stand-alone operation to an integrated part of sophisticated power architecture. To maximum flexibility, internal fusing is not included; however, to achieve maximum safety and system protection, always use an input line fuse. The safety agencies require a normal-blow fuse in 24Vin, 48Vin with maximum rating of 1500mA, 800mA. Based on the information provided in this data sheet on Inrush energy and maximum dc input current; the same type of fuse with lower rating can be used. Refer to the fuse manufacturer's data for further information.

MTBF and Reliability

The MTBF of TEN 6WIN series of DC/DC converters has been calculated using MIL-HDBK 217F NOTICE2, Operating Ambient Temperature 25C, Ground Benign.

Unit	Model	MTBF
Hours	TEN 6-2410WIN	1,019,056
	TEN 6-2411WIN	1,037,344
	TEN 6-2412WIN	1,057,641
	TEN 6-2413WIN	988,142
	TEN 6-2415WIN	1,104,606
	TEN 6-2421WIN	1,031,034
	TEN 6-2422WIN	1,076,774
	TEN 6-2423WIN	1,073,307
	TEN 6-4810WIN	917,684
	TEN 6-4811WIN	1,004,117
	TEN 6-4812WIN	1,089,443
	TEN 6-4813WIN	1,149,161
	TEN 6-4815WIN	1,107,910
	TEN 6-4821WIN	996,810
	TEN 6-4822WIN	1,055,632
