

## Rail Depth Adapter Kit *RDA Series*

The Rail Depth Adapter Kit from Hammond Mfg allows equipment to be mounted either four (4) inches in from the rails or four (4) inches out. Useful when mounting outlet strips or equipment with no clearance allowing it to be mounted. Hammond's universal design is the only of its kind that allows it to be mounted in recession or extension.

### Features

- Available in 1U and 2U sizes.
- Designed to mount equipment in front to the rail or behind the rail.
- Includes 10-32 square hole cage nuts and screws for adapter and mounting rail

Part No.	Overall Dimensions		Mounting Dimensions	
	Height	Depth	Height	Rack Units
<b>RDA 1U4</b>	1.75	4.00	1.75	1U
<b>RDA 2U4</b>	3.50	4.00	3.50	2U
