

1 GHz Coaxial Adapter Kit for RF test instruments

Features and Specification:

- 24 Coaxial Connectors; 6 Universal Adapters
- Gold plated center contacts
- Frequency Range: DC to 1GHz
- VSWR

Product Description:

The CT 2701 coaxial connector adapter kit provided convenient solutions to most interconnection needs. The Universal Coaxial Adapter Kit, with its 6 universal adapters, allows assembly of hundreds of different coaxial adapters; in-series and between series. All pieces are machined brass with Teflon dielectrics and gold plated center contacts. Whether field service or bench, this kit provides an easy solution to coaxial connection requirements.
