

# 5mm Conical Soldering Tip

**RoHS  
Compliant**

## Features:

- Designed and manufactured exclusively for the Tenma Model 21-7945 Soldering Station
- Provides marked performance improvement
- Pre-tinned Iron plated copper construction provides excellent heat transfer
- Highly resistant to oxidation
- Provides usable life that is many times that of the stations original tip
- Point length: 19mm
- Point width (widest point): 5mm
- Shaft diameter: 5mm
- Shaft length: 46mm

## Description:

### Premium Quality Conical Replacement Soldering Iron Tip

Extensive testing with the Tenma Model 21-7945 Soldering Station clearly demonstrates that upgrading to this high-quality replacement tip drastically improves the performance of the soldering station. The combination of this tip and the 21-7945 station provides soldering performance expected of stations costing several times more.

## Note:

Manufactured exclusively for Tenma by Plato® Products, these tips are lead-free in accordance with EU Directive 2002/95 EC. These products may be used in an electronics manufacturing process which produces RoHS compliant products.
