

AM52BA2

The AM52BA2 is a combination of the rigid AM52B articulating flex-arm and a desktop base rack that holds the AM52B on top of a table. The desktop base rack is designed for situations where the standard clamp cannot be used to secure the AM52B on a stable surface.

Two of the flex-arm axis can be rotated 360 degrees and extended for further reach.

The AM52BA2 flex-arm is manufactured from durable, lightweight recycled aluminum and has the ability to be folded flat, which makes the AM52BA2 stand portable and ready for travel.

DIMENSION

36cm (L) x 15.3cm (W) x 5cm (H)

TECHNICAL SPECIFICATIONS

Table top rack

Articulating arm

Accuracy adjustments

Manufactured from durable, lightweight recycled aluminum and able to be folded flat makes the versatile AM52BA2 stand conveniently portable.

APPLICATIONS

Science / Engineering work / Study and Educational use / Dermatology / Detailed repair Assembly & quality control / Electronic industry / Mechanical industry / Hobbies & collecting (coin, stamp, watch, jewelry, etc) / Antiques / Enforcement
