

# SL-ZW1

The SL-ZW1 is a polarized USB powered gooseneck light with the ability for the polarization to be adjusted by a simple rotation on the accessory itself. To take advantage of the polarizing light, the accessory has to be used with Dino-Lite models that have the polarization ability such as the AM7013MZT, AM4113ZT, AD4113ZT and AD4013MZT.

This accessory is great for applications such as jewelry inspection, and also great for conditions where the Dino-Lite is too far from the object but still requires polarized illumination. If the Dino-lite does not have the polarization feature, you can still use it as additional external lighting or as a side light to enhance the view of surface topography.

## TECHNICAL SPECIFICATIONS

Polarizer	Yes
Unit Dimension	40cm (L) x 1.6cm (W)
Unit Weight	56(g)

## APPLICATIONS

Science / Engineering work / Study and Educational use / Dermatology / Detailed repair / Assembly & quality control / Electronic industry / Mechanical industry / Hobbies & collecting (coin, stamp, watch, jewelry, etc) / Antiques / Enforcement
