

DREMEL®

BIG ON DETAIL

DREMEL® DSM20

The Dremel DSM20 is the ultimate compact saw with an excellent line of sight. With its clear line of sight, powerful motor and use of abrasive wheels, this saw can easily perform precise straight, plunge and flush cuts in materials up to 20mm thick. The product comes with a wide variety of non-intimidating abrasive cutting wheels, which in combination with the dust extraction port allows for clean and accurate work in wood, metal, plastics, stoneware and tiles. This kit includes three attachments which help to enhance the cutting capabilities of the Dremel DSM20. Cutting parallel to the edge of the work is simple with the edge guide, while the 2x4 cutting guide can be used to quickly and accurately make cuts in 2x4 timber.

Dremel DSM20 the ultimate cutting solution.

FEATURES AND BENEFITS

- Excellent line of sight: for accurate cutting.
- Abrasive wheel technology: for straight cuts, plunge cuts and flush cuts in wood, metal, tile, plastic and masonry.
- Worm drive gearing: for durability and power.
- Powerful 710W motor: for tough applications.
- Adjustable depth guide: for precision and control.
- Dust extraction port: for clean working environment.
