- Polycarbonate tested -40°F (-40°C) to 120°F (49°C)

STI CALL POINT STOPPER

Protective cover to prevent malicious or accidental damage to electrical switches and call points.

The Call Point Stopper is an aesthetic inexpensive cover which provides a secure fit to a wide range of electrical switches and call points. The cover prevents misuse to the device without restricting legitimate operation. It is ideal for shopping centres, hotels, schools, colleges, hospitals, nursing homes and all public buildings where there is a risk of malicious or accidental activation.

HOW IT WORKS

The Call Point Stopper consists of a clear tough polycarbonate hinged cover that retrofits securely over the device. Simply lift the cover to gain access to the device.

Once the cover is released the spring loaded hinge returns the cover to its original position.
