

fasis CON
DIN Rail Terminal Blocks
with Plug-In Connection

Plug & Play

DIN rail terminal blocks with plug-in connection

The system

- Rated current up to 32 A
- Connection cross-section 4 mm²
- Width 5 mm

The socket plugs

For application specific wire harness assemblies, or single pole test plug.

The terminals

Modular din rail mount terminals for universal use with pluggable connectors, all with spring clamp termination technology.

In addition to the pluggable connection, a spring clamp termination also is available to use the block as a standard feed-through terminal.

The jumping system

The Wieland Standard push-in jumper system can be used in both the modular terminal and in the plug-in connector.

All basic terminals are fully compatible with the **fasis** WKFN series, including the 16 mm² feed-in terminal.

The modular terminal block's integrated jumper channel maintains a permanent feed-through connection even when the plug is not installed.

The labeling system

All termination points can be clearly labeled using the standard Wieland labeling system.

Integrated safety

IP 20 touch protection in all components, even when not connected.

All plug connectors have a built-in latching mechanism and coding option – no further accessories required.

DIN rail terminal blocks with plug-in connection

Plug & Play in the control cabinet – with **fasis** CON

fasis CON is a DIN rail terminal block system with a pluggable outgoing feeder, which offers modular, cost-saving solutions with advantages in every phase of the service life of an electrical system.

fasis CON is a fully compatible part of the established **fasis** WKFN system. Both the terminal and the plug connector possess the high-performance features of **fasis** WKFN.

fasis CON consists of feed-through blocks and PE DIN rail terminal blocks with different numbers of wire terminations and pluggable outgoing feeders for the **fasis** CON socket connectors.

fasis CON is a cost-effective, high-performance and pluggable system solution.

Cost-effective

- Cost-optimized installation and maintenance times
- Small numbers of components
- Can be assembled individually
- Pre-assembled modules

High-performance

- Range of terminals up to 4 mm²
- Rated current up to 32 A*
- Rated voltage 500 V
- Total width only 5 mm

Pluggable

- Complex systems can be brought on-line quickly and cost-effectively with pluggable technology
- Functional units can be tested easily
- Modules can be replaced quickly if faults occur
- Systems can be expanded with pluggable technology

Complete system

- Uniform accessories
- Coded to prevent mismating
- All components can be bridged
- Comprehensive and clear labeling
- Can be combined with **fasis** WKFN

Industrial technology

Solutions for the control cabinet

- DIN rail terminal blocks
 - Screw, tension spring or push-in connection technology
 - Wire cross sections up to 240 mm²
 - Numerous special functions
 - Software solutions interfacing to CAE systems
- Safety
 - Safe signal acquisition
 - Safety switching devices
 - Modular safety modules
 - Compact safety controllers
 - Applicative consultancy and training
- Network engineering and fieldbus systems
 - Remote maintenance via VPN industrial router and VPN service portal
 - Industrial Ethernet switches
 - PLC and I/O systems, standard and increased environmental conditions
- Interface
 - Power supply units
 - Overvoltage protection
 - Coupling relays, semiconductor switches
 - Timer relays, measuring and monitoring relays
 - Analog coupling and converter modules
 - Passive interfaces

Solutions for field applications

- Decentralized installation and automation technology
 - Electrical installation for wind tower
 - Fieldbus interfaces and motor starters
- Connectors for industrial applications
 - Rectangular and round connectors
 - Aluminum or plastic housings
 - Degree of protection up to IP68
 - Current-carrying capacity up to 100 A
 - Connectors for hazardous areas
 - Modular, application-specific technology

PC board terminals and connectors

- Screw or spring clamp connection technology
- Spacings: 3.5 mm to 10.16 mm
- Reflow or wave soldering process

Building and installation technology

- Building installation systems
 - Main power supply connectors IP20/IP65...IP68
 - Bus connectors
 - Low-voltage connectors
 - Power distribution system with flat cables
 - Distribution systems
 - Bus systems in KNX, LON and radio technology
 - DIN rail terminal blocks for electrical installations
 - Overvoltage protection
