

Su Doku Classic - the PC version of the puzzle craze sweeping the nation. You'll find a whole host of Su Doku puzzles to get your teeth into from really easy ones to fiendishly difficult! Addictive and fun the rules are simple - each number from 1 to 9 should be used only once in each row, column and 3 by 3 square. The puzzle is completed when there are no more unknown squares. But don't worry you don't have to be a mathematical genius to play, each of the puzzles is solved using pure logic. Su Doku Classic has 3 difficulty levels - beginner, intermediate and advanced, providing hours of challenging fun for all ages & ability levels!

The puzzle board is also divided into 9 areas (3x3 squares each), and each one of those must also contain the numbers 1 through 9. Duplicate numbers are also not allowed in any area, so each part should differ from other areas. To put it simply, each and every row, column, and area must contain numbers one through nine, only once each.

The game utilizes a simple drag-and-drop approach for number placement, as well as an easy-to-use menu, in which you can choose from 3 levels of difficulty (beginner, intermediate and advanced), enable or disable sounds and whether the game should show illegal moves. You can also pause or restart the game at any time, and even print the puzzle.
