Server/rack equipment trolley

The server/rack equipment trolley provides mobile storage or a WIP buffer for servers or 19" rack size electronics. The server trolley bracket shelves have 20.75" space between brackets. Brackets are easily adjusted along the height of the frame. Brackets are also available with ESD matting as an option.

Fitter's trolleys

A fitter's trolley with drawers lets you take your tools wherever you go, while keeping them organized. The rubber mat helps keep tools in place while you are working and the drawer unit comes equipped with a safety lock that allows only one drawer to be opened at a time. This helps to keep the trolley in balance – even with heavy loads. Fitter's trolleys are equipped with four swivel casters (Ø 3.93 inches), two of which have brakes. Fitter's trolley can be combined with all M30 accessories.
