

3M™ LeadCheck™ Swabs LC-8S10C

3M ID 70005139269 UPC# 00717834209102 CAT# LC-8S10C

3M™ LeadCheck™ Swabs provide an instant and very easy solution for lead detection. 3M™ LeadCheck™ swabs will work on most surfaces, instantly turning red when lead is present: RED MEANS LEAD™. 3M LeadCheck swabs are odorless, disposable, and non-staining.

- 3M LeadCheck Swabs provide instant lead-detection results for quick and accurate job pricing
 - In just seconds, you will know if lead-safe practices are required
 - Test for lead on surfaces such as painted surfaces, steel structures, vinyl and other plastics
 - Detects lead down to 600 parts per million
 - Contains 8 ready-to-use no-mess, disposable swabs
- Subject to or will include a recycling fee in the following states: CA, OR, CT

3M™ LeadCheck™ Swabs are EPA recognized on painted wood, metal, plaster and drywall surfaces. They provide an instant and easy test for lead on most surfaces. Simple to use - just crush, shake and swab. When lead is detected, 3M LeadCheck Swabs turn red -- RED MEANS LEAD. Results are usually obtained in less than 30 seconds. Each kit contains test confirmation cards to verify individual test results
