

Tactile On/Off Switch with Leads

PRODUCT ID: 1092

. DESCRIPTION

Squeeze once to turn on, squeeze again to turn off! This clicky switch makes a great power switch or mode toggler. We like this switch because it's easy to embed in a seam for easily powering up/off wearable and fabric projects. Can handle up to 14V and 2 Amps! This is a really satisfying switch.

As of May 20th, the dimensions of this switch are:

- Length of wires: 190mm / 7.5"
 - Dimensions of body: 16mm x 15mm x 6mm / 0.6" x 0.6" x 0.2"
-
